FEATURES

38 Industry Pulse What builders have accomplished with LEED and what the future holds.
By Stephen Carpenter

STATE OF THE INDUSTRY

8 Report Rundown A snapshot of data across a variety of sectors over the last two years.

12 Building to Last What do sudden failures mean to the industry? Are aging assets really crumbling? If they are, what can be done to prevent it?
By Mira Shenker

TRANSPORTATION

28 Power Up The electric vehicle is a popular symbol for the coming smart evolution. What are the logistics involved in making its adoption a reality?
By Kerry Freek

32 Where Rail Meets Residents Tackling the conflicts that arise when rail is built in proximity to urban spaces.
By Cynthia Lulham

DEPARTMENTS

4 Editor's Note Are we over protecting the public from infrastructure failures?
By Mira Shenker

16 ReThink Utilities are on the front lines of a smart grid revolution, but it's not about technology for the sake of technology. In essence, smart grid is about visibility and efficient operation.
By Mira Shenker

24 ReImagine The first LEED-certified project in Saudi Arabia turns a sandscape into a research hub.

26 Panorama An abandoned train station will soon become medium density housing—in the interim, it's an artist's haven.

34 ReFinance Changes to Samsung's "sweetheart deal" in Ontario, and the politics and economics of developing renewable energy.
By Douglas McCallum

46 ReLocate Jobs gained and lost in the industry.

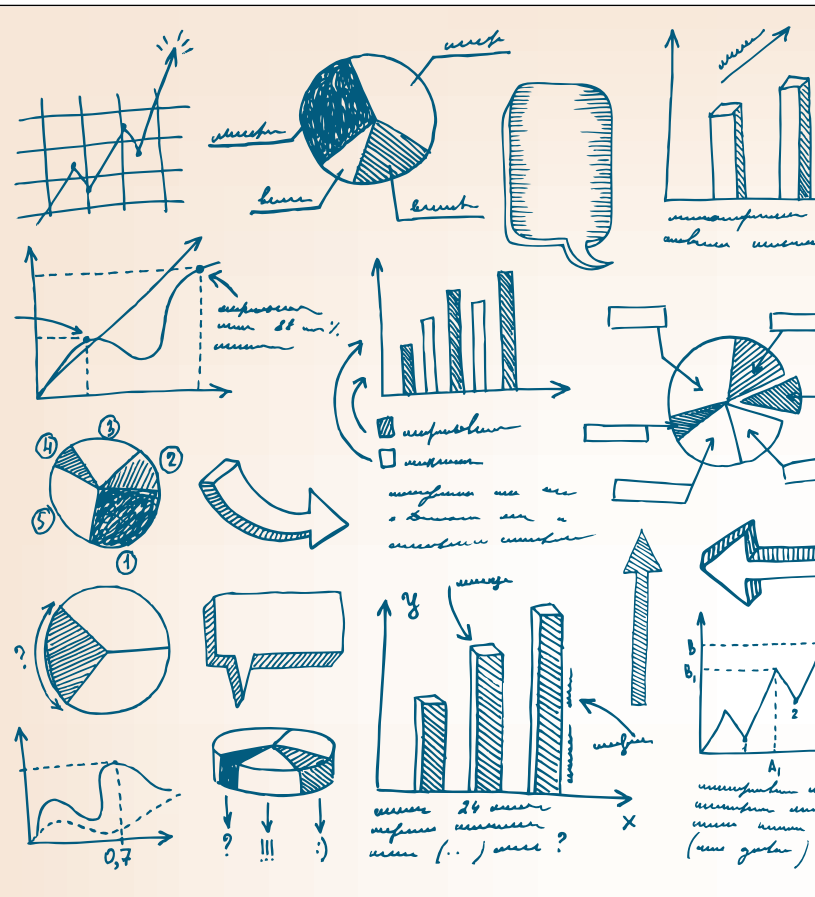

47 ReEvents Canadian Projects and Money, plus upcoming events.

50 Closing Shot *Todd Latham* recounts his experience as a member of the City of Edmonton's ECCA Lands Selection Committee.

FRONT

5 Letters A reader defends "public union fat cats;" Ontario plans for northern growth.
